

BOARDING PASS TO CLOUD • FAQ

Boarding Pass to Cloud FAQ

It's not if you move to Cloud — it's when, and who with. Let Qubix unravel the complexities of moving from on-premises to Cloud with Boarding Pass to Cloud.

Qubix

Don't be left behind. Start your journey to cloud.

We understand that a decision to move to cloud is a strategic one. We know this because we've advised leading businesses globally on their move to cloud and created the Boarding Pass to Cloud program to share this experience. What we have learnt on this journey is that customers still have some reservations. We have answered some of the key questions we normally face to help you overcome those reservations. Please feel free to talk to us if you have more.

MOST FREQUENTLY ASKED SECURITY QUESTIONS

Secure Data Isolation – Do you co-mingle my data with other cloud customers?

No, each customer is provisioned with their own private cloud so you have your own separate data environments.

Unified Access Controls – Can you control access across my cloud applications? What if users leave or join your company?

No one but you can access your cloud applications and provision users. No one at Oracle or Qubix has access to your environment unless you provision them with a user to allow them access

Do you comply with local Data Residency and Compliance regulations?

Many organizations have data location requirements especially in EMEA and APAC. Several industries require compliancy with industry based data privacy and security standards such as PCI, etc. Oracle has a broad compliance portfolio and we have not found this to be an issue with any of our Qubix customers.

Where are your data centres?

Oracle operates enterprise grade cloud data centers around the world including in Europe, U.K., North America and Asia-Pacific. All locations have a highly redundant infrastructure and 99.5% availability.

Does Oracle rely on third party staff or contractors in the data centers?

No. All data centre staff are Oracle Employees. They are vetted, screened and trained by Oracle. No outside contractors or staff have access to Oracle's Cloud infrastructure.

MOST FREQUENTLY ASKED SYSTEM QUESTIONS

Will my cloud subscription include everything I need or are there additional costs increasing my TCO?

With an Oracle EPM Cloud subscription, you will be provided all the Cloud resources needed. You are provided with storage that will far exceed the needs of most customers which is sometimes a concern at other vendors.

Will I have to purchase a development environment as I do not want to make changes directly on my production environment?

Included in your Oracle EPM Cloud subscription, you have a development and production environment, there is no extra cost.

Will I suffer performance issues on the Cloud?

No. Your applications are hosted on high performance hardware that leverages in memory technology for performance and speed, not only for calculation but also for analysis.

How will I get my data on the Cloud?

Your EPM Cloud has the ability to accept flat files and load them in to the EPM Cloud. At Qubix we have developed Qubix CloudBridge — a data orchestration platform that will ease that process for you and can be highly automated.

If my data is on the Cloud, how will I report against it?

All the EPM Cloud applications have embedded analytics and formatted reporting capabilities included as part of the application. It can also be enhanced by purchasing Oracle Analytics Cloud for dashboard reporting or Oracle's Enterprise Performance Cloud service for narrative and regulatory reporting requirements.

Enabling the Predictive Enterprise

It's not if you move to Cloud – it's when, and who with.

We are recognized as one of Oracle's leading Cloud EPM and Business Analytics partners. We believe there are three compelling reasons to choose Qubix:

Challengers

- 1st to Cloud
- Industry Benchmarking
- Fixed-scope solutions
- We keep innovating

Outcome-Driven

- What's right for you?
- Maximize your returns
- Faster time to benefit
- Deliver as promised

Trusted

- Customers love us
- Oracle Platinum Partner
- 1,000+ engagements
- Award winning

Qubix

Experience & Skill
